TRUE UV FLATBED PRINTER

Amplify Creativity

Product Features

- High Performance LED Lamps for Longer Durability and Efficiency.

- Using Toshiba and Ricoh industrial printhead, high precision and stable output.

- High-precision automatic height detection system and high-sensitive anti-collision system.

- White & Color & Varnish output.

- Use Professional RIP software to process multiple orders and maintain color uniformity.

Specifications

Print Head	Industrial Grade Jetting Assembly
Max Printing Size	900 * 600mm
Max Media Thinkness	Maximum - 170mm
Resolution	DPI (720*2400)
Ink Supply System	Automatic Ink Supply
Color Configuration	CMYK+W+V; CMYK+LCLM+W+V
Ink	CMYK, White, UV ink
Speed	Draft Mode:- (4 pass), Production Mode:- (6 pass), High Quality Mode:- (8 pass)
Distance Accuracy	± 0.005mm
Printable Media	PVC board, Insulating board, Metal, Glass, Ceramic tile, Acrylic, KT board, Foam board, phone case etc.
RIP Software	Professional Industry Standard RIP S/W
Power Supply	AC220V, 50Hz±10% UPS Required
Power	500 W
Operating System	Windows OS (10x64)
Operating Environment	Temperature 25 to 30°C, Humidity 40-70% Dust free environment
File format	CDR, DST, DXF, TIFF, JPEG, EPS, PDF etc.
Package Size	1790mm * 1833mm * 760mm
