Yoddha

T - 2513

HIGH SPEED UV FLATBED PRINTER

Amplify Performance

Product Features

- Automatic height measure system, anti-collision system Prevents PH damage during printing.
- Intelligent constant temperature, separate negative pressure ink supply system.
- Led UV water cooling system ,higher performance, and lower energy consumption.
- Zero position assist system ,multi-zone vacuum control printing platform.
- High strength steel frame structure, high bearing will not be deformed.

Ceramic Tile

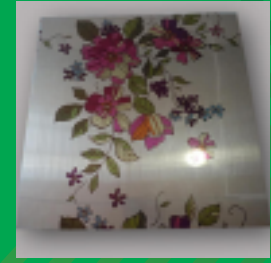

Glass Sheet

Acrylic Sheet

Wood Board

Metal Plate

Specifications

Print Technology	Drop-on-demand, Piezo Electric Inkjet
Print Head	Industrial Grade Jetting Assembly
Printing Size	2500 * 1300mm
Printing Resolution	720*900DPI; 720*1200DPI; 720*1800DPI
Color Configuration	CMYK+W+V; CMYK+LCLM+W+V
Media Thickness	Maximum - 100mm
Printable Media	MDF, Acrylic, Glass, Metal Sheet, PVC Door, Ceramic Tiles, Wood etc.
Image Format	TIFF (RGB & CMKY), BMP, PDF, EPS, JPEG
Ink System	Continuous supply, 2000ml Large bulk system with automatic supply
Ink	LED curable UV inks
Printing Speed	4PASS -18m2/h : 6PASS - 12m2/h: 8PASS - 09m2/h
Power Requirements	AC 220V (± 10%); 50HZ; P:5000W
Data Interface	High speed USB 3.0 transmission interface
Operating System	Windows OS (10x64)
RIP Software	Professional Industry Standard RIP S/W
Work environment	Temperature: 20-30°C; Humidity: 40~70%
Weight	1100KG
Equipment Size / Package Size	4570mm*2161.5mm*1352mm / 4750mm*2250mm*1580
